# L8 Rehabilitation Treadmill Features

With its large running service and weight capacity, the L8 Rehabilitation Treadmill combines superior Landice craftsmanship with truly versatile rehabilitative, medical, and sports conditioning solutions.

## Landice Control Center

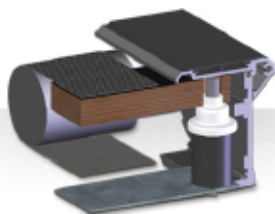

The Landice Control Center comes standard on the L8 Rehabilitation Treadmill. Included is an integrated reading/accessory rack and a convenient water bottle holder. Check out our additional items that will enhance your workout in the console image.

## Rehabilitation Control Panel

The Control Panel combines versatile LCD with a variety of program options, numeric keypad for quick data entry and multiple heart-rate control programs.

- 5 Built-in programs with variable time, speed and incline
- 5 User-defined programs
- Time and distance goal programs
- 2 Fitness tests: Balke, Firefighter
- 1 Built-in heart-rate monitoring programs
- Displays data in English or Metric configurations
- Interactive contact heart-rate

## L8 Rehabilitation Treadmill Highlights

The L8 Rehabilitation Treadmill features a four-horsepower continuous-duty drive motor ranging in speed from 0.16 to 19.3 km/h. The rust-free aluminum frame contains a 1-inch thick reversible deck capable of reaching a 15% elevation.

## Finest Quality, Safest Support

Made with the finest quality care and materials, the L8 Rehabilitation Treadmill provides the best and safest support for all your rehabilitative programs. The L8 offers a large 56 x 160 cm running surface and a 230 kg user weight capacity. With a zero starting speed, 300 micro-amp isolation leakage kit and extended parallel medical handrails, this treadmill is ideal for any physical therapy center. A number of unique options are also available such as a reversing treadbelt for downhill walking.

## VFX Shock Absorption System

Landice is the industry leader in treadmill shock absorption. Our VFX Shock Absorption System is based on medical research to provide optimum comfort, smoothness and reliability while reducing the risk of injury. Five-times softer than grass, it is designed for runners and walkers seeking significant impact reduction.

# L8 Rehabilitation Treadmill

Made with the finest materials, the L8 Rehabilitation Treadmills provide the best and safest support for all your rehabilitative programs. With a low step-up height, zero starting speed, 300 micro-amp isolation leakage kit and extended parallel medical handrails, these treadmills are ideal for any physical therapy and sports conditioning center. A number of unique options are also available, such as a reversing treadbelt for downhill walking, 100 micro-amp hospital isolation leakage kit, and an orthopedic suspension system.
